“

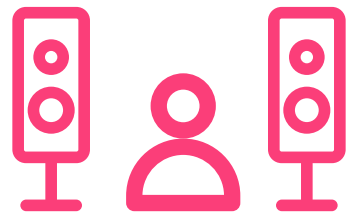

Dolby Atmos has **really elevated my listening** and movie experience

Dolby Atmos is my go-to when I want a **premium experience**

Turn a song on and listen to it for a little without Dolby Atmos and then turn it on while the song is playing. **You can hear a clear difference**

It's not all in your head:  
Dolby Atmos drives decision making

"The main selling point for me was **Dolby Atmos sound**. It's awesome for superhero and sci-fi flicks when you can hear stuff flying around, lasers zipping by, etc."

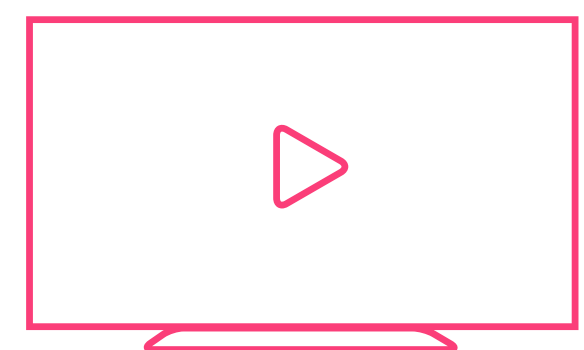

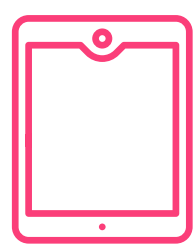

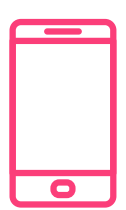

"Love the fact that all of **Apple TV+ content is Dolby Vision and Dolby Atmos by DEFAULT!**"

"You wouldn't expect it at first, but Netflix's 4K Roma stream has possibly the most consistently superb **Dolby Atmos track** of any feature I've heard. It's all the more impressive as **it doesn't rely on any bombastic sound effects or action scenes.**"
